

Take the lamp of love, which I have lighted anew. Carry it to your brother. Whoever loves, saves, whoever saves, loves! These are the hands of this clock. They circle around my heart. These are my heartbeats, that is how the *Act of Love* is connected to me. These are my own heartbeats and no one can stop this clock. The opposite is true: the echo is heard in St. Peter's Cathedral! This clock will not go too slow. It will be spread throughout the whole world. The whole world will listen.

Every *Act of Love* will ignite like never before. Everyone will receive me till all are one. If every soul would pray it only once in the morning and again only once at the end of the day, then the thousand would be completely accepted, as every raindrop that falls into the ocean and none of them could be fished out again. Whoever prays, loves – whoever loves, prays!

So I bring my Mercy to the light. Yes, more so: It is like a fuse which is connected to the light wire. The same effect is produced each and every time and everywhere.

You can't fathom love, therefore accept the *Act of Love* for the whole world which has become so cold. This is the sun, the light against the darkness. Where it is prayed, sin will no longer be able to spread. I gave it to you as a gift through My Mother – and the gift was the same size for everyone. Remember the Wedding feast at Cana. I myself am the Bridegroom, through the miracle that happened there.

This *Act of Love* should build a community. I want to give you this love. I am among you – a lover!

I want to destroy the power of the devil with the *Act of Love*. I showed you how the little David went to fight with small stones and you have the *Act of Love* multiplied a thousand fold. I will show you how much it is worth. Souls, Souls! A lamentation of My love! Death must give way to these souls, because love cannot die. The cross has become victorious!"
